INES.ContactManager

Contact Manager

INES.Contact Manager is the collaborative solution to manage your contact network and exchanges. Complete integration of your mailing and agenda with your contact base will provide you remarkable advantages: you would be able to assign tasks and calls, write your notes and reports, schedule meetings. You will save time by sharing documents and creating your own sample letters.

Thanks to all these features, members of your team would be able to simplify their daily tasks significantly saving both time and money.

You will start enjoying the advantages of a simple and complete solution right away. You will later be able to continue incorporating modules within INES solutions as your needs demand.

Benefits

- Gain in speed and efficiency in all tasks
- Simplify your team's daily work
- Discover true collaborative work
- Get to know your clients better and in depth

Features

It includes all INES.ContactManager features, plus:

- Quick and easy data import
- Total centralization of contacts
- Clear information display
- Data protection/ Rights management
- Accurate contact qualification
- History of exchanges (appointments, calls, emails...)
- File management and email templates
- Collaborative agenda
- Tasks and alerts follow-up
- Integrated mailing (Outlook, Lotus Notes and Google Apps synchronization)
- Sharing files management

"The systematic formalization of the exchanges with our customers is the main benefit which we derive from the use of INES. We noticed a considerable gain of time in the access on our information, as well as in its organization. Due to its intuitive interface, INES was quickly adopted internally by our teams."

Pierre VU - Sales and Marketing Manager
