INES.E-BusinessSuite

Business Manager

Managing your company commercial activity effectively resides in making constant decisions. INES e-Business Suite allows you to manage and control all areas of your organization from an only tool.

Since the first contact with a potential customer to the collection of an invoice, you will have a 360° perspective of your activity: forecasting, follow up of your commercial opportunities, budget elaboration, purchase receipts, dispatch notes, invoicing, stock and purchase management, treasury, results account and command control.

INES e-Business Suite will simplify all your sales processes right away!

Benefits

- Manage your commercial activity in real time
